C Marchuska Hunter Scarf

Thrifty Jinxy's Holiday Gift Guide & Giveaway

The **hunter scarf** is a luxurious unisex scarf made from the finest organic blend of modal and silk. Its generous length allows it to be worn conventionally around the neck, but also looks incredibly chic as a hair wrap! This super soft staple is the finishing touch to your winter wardrobe! The hunter scarf is part of the cmarchuska Signature Collection and is made with care in the NYC garment district.

I recently received this scarf and LOVE it!!! It is so soft and comfortable. It is very long and flexible so its perfectly for wrapping several times around your neck or over your head and if you get extremely cold weather, like we do here, you can even wrap it around your face when out in the wind and it still feels soft. It looks great with any winter coat or else makes a great accessory with a sweater or other winter ensemble. You can check out this great scarf at [cmarchuska](#).
